CELEBRATE THE TRIUMPH OF DEMOCRACY IN EL SALVADOR!

After centuries of violent inequality and repression, a dozen years of armed struggle against a brutal, U.S.-backed military, and two decades of rule by the right-wing ARENA party, the Salvadoran people elected the first leftist president in their country's history on March 15th, 2009. **President Mauricio Funes of the FMLN** takes office on June 1st, bringing El Salvador into a growing community of Latin America nations seeking to chart their own, independent economic and political course. Join CISPES to learn about **the platform, plans, and strategy of the new FMLN government...**

...and what WE can do in the U.S. to support the strengthening of **REAL democracy** in El Salvador!
